

SIMPOSIUM LIVE!

SECURITY IDENTITY MOBILITY

Maximize the value of the show with our effective online networking solution by visiting SIMposiumLive !

We are pleased to present SIMposiumLive!, the online delegate networking service which enables you to contact other pre-registered attendees pre, during (in real time!) and post-show. This online service offers a totally secure and private environment to extend the networking beyond the 2 conference days.

We'll keep the service open post-show for you to catch up with anyone you missed or to continue the debate.

In addition, all presentations will be available after the event in SIMposiumLive. You will also be able to watch the videos of the presentations.

Data is strictly used for delivering the networking service and for no other purpose.

How does it work?

STEP 1: Log In

Log in at www.simalliance.org or www.simalliance.org/simposiumlive using the email you have given to register for SIMposium 2011 and with the 'forgot password' function you can reinitiate your password. If you already have a web account with SIMAlliance, just use these credentials.
