

AT4 wireless & Collis offer full portfolio of NFC & Mobile Payments test solutions

Mobile World Congress, Barcelona, Spain, February 14th, 2011: AT4 wireless & Collis start a co-operation to jointly offer a full range of NFC and Mobile Payments test solutions.

The scope of this partnership will include Collis and AT4 wireless products for the NFC, Contactless, Payment, transit and ID market segments. This test solutions portfolio will include Collis' Mobile Payment and NFC related test solutions, such as the Collis SWP-HCI Test Suites, Collis GlobalPlatform UICC Configuration Test Suite and Aspects Spy (end-to-end). The portfolio also includes AT4 wireless' NFC and RFID conformance and R&D test tools, including the recently approved RIDER test solution for the NFC Forum Certification. Altogether a complete portfolio to ensure the compliance of a handset or SIM according to NFC Forum, GlobalPlatform, ETSI/3GPP, Visa and MasterCard standards.

"We are excited about this partnership" commented Andres Moreno, AT4 wireless Sales and Marketing Manager. "The NFC technology is gaining a lot of momentum and this cooperation between Collis and AT4 wireless will offer an excellent test solutions portfolio to Mobile Network Operators, mobile device vendors and Certification Test Laboratories". "We recognize Collis' leadership in Contactless and Payments solutions, where they are an international reference; this alliance is quite powerful and will be very much appreciated by the Industry, as we offer a full solution for their NFC and mobile payment needs.

Berend van Geffen, Collis Chief Commercial Officer. "Collis is very pleased to join forces with AT4 wireless and offer the full suite of NFC & Mobile Payments solutions across multiple markets. AT4 wireless are the leading experts when it comes to Wireless communications and network solutions. Collis' market leading solutions for NFC/TSM, Mobile Payments and SIM technology is driven by innovation and real domain expertise. Collis is acknowledged by the Payment, Mobile, ID and Transit markets as a leading solution provider in secure applications & transaction technology. The cooperation between Collis and AT4 wireless sees a robust and complete portfolio now available for all players across these domains."
